# Trusted Local Businesses

Community of local businesses recommended in  
**Midsomer Norton & Radstock**

## Experts On Your Doorstep

Word of mouth recommendations are often the best way of sourcing good local professionals and tradespeople – but sometimes friends and family don't know who to suggest.

Our local directory offers you peace of mind that every business has been recommended by at least three of their recent customers.

By using local businesses you can put money back into the local economy and you may avoid paying the higher prices of those who travel in from outside our area.

**Andrew Vincent**

While our guide is based on recommendations by local people, we cannot take responsibility for any of the work carried out by the businesses we list. Avoid falling victim to cowboy tradespeople. Check that every business is a member of the appropriate trade associations and has adequate insurance cover. Avoid using tradesmen that call on your door unannounced.
